

ENVIRONMENTAL POLICY OF COMPANY KPK spol. s r.o.

(The company's environmental policy is the basic document of the environmental management system, which expresses the attitude of the company's management and its employees to environmental protection in the production of its products and provision of services).

KPK spol. s r.o. is aware of its responsibility towards the environment and therefore environmental protection is an integral part of the daily activities of the company's employees. Our company is determined to face the challenges associated with climate change and is aware that environmental protection can contribute to mitigating climate change.

When implementing the goals of the environmental policy, in accordance with the principles of sustainable development, we are guided by the following principles:

- **comply with obligations arising from applicable environmental legislation, as well as other regulations and requirements in the field of environmental protection;**
- **take into account the requirements of interested parties and fulfill our binding requirements;**
- **apply preventive measures in environmental care to prevent environmental pollution;**
- **increase the efficiency of resource use;**
- **regularly monitor and evaluate compliance with the environmental policy and environmental objectives as part of a regular review;**
- **systematically prepare employees and thereby increase their awareness of the environmental management system and their contribution to the effectiveness of the system;**
- **determine the environmental aspects of its activities, products and services and their related environmental impacts;**
- **increase the emergency preparedness of the company's employees in order to minimize the negative environmental impacts of the company's activities;**
- **make a commitment to continuous improvement of the environmental management system in order to improve the company's environmental behavior.**

All employees of company KPK spol. s r.o. are obliged to follow the above principles and fully respect the environmental policy.
